- Realistic new siren, bell and horn sound effects.
- Adjustable pricing.

ATARI
© 1982 ATARI CORPORATION

Atari's first "cooperative" game.

Fire Truck™ is a completely new video game concept. For the first time 2 players must "cooperate", to achieve highest score.

An Irresistible replay challenge.

Two drivers work as a team to control a hook-and-ladder fire engine. One player drives the cab, the other steers the trailer simulating the excitement of an actual fire chase. The constantly moving city street, the challenge of keeping the cab and trailer driving together provide new thrills every time the game is played, as drivers race the clock to cover as much distance as possible.

Quick reflexes for both players are a must to avoid crashing into curbs, oil slicks and other obstacles and losing time.

Two different 1-player games.

A single player can choose to drive either the cab or the trailer. In this mode, the computer takes over as the alternate driving partner.

New Operator Options.

Extended Play can be set for liberal, medium or conservative points for each of four game times.

Game time is adjustable to 60, 90, 120 or 150 seconds.

Coinage: 16 coin modes including 1 or 2 players per coin, 2 coins per play, or free play for display or demonstration.

Four Languages: Operators may select English, French, German or Spanish video message presentations.

Built to take it.

Durastress™ tested solid state electronics, durable construction, and Instapart™ parts turnaround means longer maximum earnings potential.

Two different tracks.

Players select "Easy" or "Hard" tracks, step on the accelerator and take off. The roar of acceleration, crash, sled, and new firetruck sounds add to the excitement. Score, Fuel (time remaining) and Driver Ratings are displayed on the screen as well as "Crunch" when players crash.

Telehelp™ at *800-538-1611.

Telehelp is your toll-free connection to our Customer Service Department. Fast diagnostic advice to help keep Fire Truck in top form.

(In California, outside the Continental U.S., Alaska and Hawaii, dial 408-745-2800 or 2901.)

* new number

Self-Test System.

Fire Truck's unique self-test program displays all micro-processor and memory functions including options.

Dimensions.

Height: 63", 160 cm; Width: 25.25", 64 cm; Depth: 63", 160 cm. Monitor: 23" B/W.

Fire up your Profits.
